Our Services

1. Employ Your Own Support Workers

HOW WE CAN HELP

As your Support Worker is involved in helping you with all of your daily activities, it's important to select someone who you are completely comfortable with. This is why Living My Way enables you to employ your own chosen Support Workers whilst ensuring a safe and compliant working environment. Our service allows you to choose your own Support Worker while we take care of all the paperwork – making the process easy for you both.

HOW IT WORKS

Living My Way can assist with all aspects of recruitment, screening and onboarding, whilst providing you with the choice and control over who you choose to support you – it can be your friend, your neighbour or anyone you feel comfortable with.

- To help you recruit your own Support Worker, we'll assist with advertising, performing NDIS mandatory screening (e.g. Police Check), providing employment contracts and managing the entire onboarding process.
- Living My Way will then process the payroll, pay associated costs and meet all your ATO employer responsibilities, such as paying Superannuation and completing all the required reporting.
- Ongoing support with Industrial Relations, Fair Work and Human Resources is available to keep you updated and compliant with your employer responsibilities.

THE BENEFITS FOR YOU

You now have the choice to employ someone you trust without missing your employer responsibilities and Living My Way will help you every step of the way.

- You don't have to worry about onboarding, payroll and other administrative items.
- You can maintain a healthy employer-employee relationship with your chosen Support Worker.

Conversations about salaries and payments can be awkward – especially if you're working with someone you're close with or rely on. So, we'll help ensure that your Support Workers are paid industry leading wages to ensure you can attract and retain the highest calibre of staff to meet your support needs.

WHAT YOUR FELLOW MEMBERS SAY

I do my own recruitment, rosters and day to day management, liaise with my staff and rostering them. I really enjoy doing this. At the end of the day, I am the person they answer to. It's very important to me to have control and choice... My workday can change but I can control and negotiate changes as I manage my staff. I learned a lot of skills negotiating and dealing with people.

HOW WE CAN HELP

A Support Coordinator can help you understand what support services you need to reach your goals, review your NDIS funding and budget the required frequency of supports. If you don't have services in place, we can assist you by linking you with providers, assist with completing paperwork, and monitor the effectiveness of the providers supporting you.

Our Support Coordinators can also help you when you require a change in NDIS funding. They can compile necessary reports and write supporting documents to help the NDIS fund you more appropriately.

HOW IT WORKS

We will collaborate with you to build your understanding of the NDIS, connect you with the right service providers and provide you with access to resources and additional help.

- You can discuss your NDIS plan with us and we'll come up with a personalised Support Coordination plan with you.
- You can then select your preferred service providers and we'll connect you with them.
- You still make all the decisions – we'll just put them into action to take the burden off you.
- You'll have complete peace of mind as we create and monitor your budgets to ensure no over-expenditure or funding errors.
